

HIOKI 3120 | VOLTAGE DETECTOR 3120 Z | Non-Metallic Contact Voltage Detector with LED Light

- ✖ Hioki is the industry leader in non-metallic contact test and measurement technology that ensures worker safety. The Hioki 3481 is a non-metallic contact voltage detector in the shape of a pen with a bright LED light that increases safety and productivity even in dim work environments. When voltage is detected, the LED turns red and an audible signal is heard.

Specifications	Details
Part number	3120
Brand	Hioki
Frequency (Hz)	50 Hz/ 60 Hz
Operating voltage [V]	40 V to 600 V AC (When brought into contact with a 2 mm ² insulated cable equivalent to 600 V polyvinyl chloride insulated wire) Maximum sensitivity variable range 40 V to 80 V AC (80 V at the time of shipment)
