

Elitech GSP-6 | Digital Temperature And Humidity Data Logger | Detachable Dual Probes -40°C To 158°C | Max Accuracy Up To $\pm 0.6^\circ\text{C}$ | Audio Alarm | Max/Min Value Display

-  The primary purpose of this data logger is to document the temperature and humidity of food, medicines, chemicals, and other items throughout storage and transit. It is broadly applicable to every cold chain logistics and storage link, including cooler bags, refrigerator trucks, and refrigerated containers.

Specifications	Details
Temperature Range	-40°C ~ 85°C
Humidity	10% ~ 99%
Resolution	0.1°C (temperature), 0.1%RH (humidity)
Logging Rate	10 sec ~ 24 hr
Memory Capacity	16000 points (MAX)
Display	multi-function LCD and indicator
Sensor Type	external temperature and humidity
Power Supply	3.6V lithium battery, replaceable
Dimensions	118 (L) * 61.5 (W) * 19 (H) mm
Weight	110 g
