

Elitech PMD 331 | Temtop Innovative Handheld Particle Counter | For Air Quality Measurement | Conform To ISO Standard PMD 331

The PMD 331 is a compact, lightweight, battery-operated particle counter featuring seven channels that can output particle counts of 0.3, 0.5, 0.7, 1.0, 2.5, 5.0, and 10.0 microns. With seven operational buttons and a sizable display screen, the monitor is easy to use and effective for quick detection in a variety of situations. The monitor can operate continuously for eight hours thanks to an inbuilt high-performance lithium battery. In addition, the PMD 331 sports an integrated 8GB large-capacity storage unit with dual USB and RS-232 connectivity modes. The discovered data can be transferred via the USB port for analysis or viewed directly on the screen.

Specifications	Details
Measuring range	3,000,000 CF
Accuracy	±10%
Display	4.0" TFT LCD screen
Memory Capacity	2,000,000 reading
Operating Temperature	0~50 °C
Storage Temperature	-20~60 °C
Dimensions	170×110×48 mm
Weight	850g
