Elitech Temtop P600 | PM2.5 PM10 Air Quality Monitor Rechargeable

The PMJG-200 Temtop laser particle detector is included with the P600. The sensor has a photosensitive element and an imported processing chip. The microprocessor chip gathers, processes, and outputs signals in digital format. The sensor is perfect for reliably detecting interior air quality and for precisely detecting the concentration of various particles in real-time.

Specifications	Details
Display	TFT Color LCD Screen
Voltage	3.7VDC
Dimensions	177*65.5*32 mm
Operating Temperature	0-50â
Humidity	0-90% RH
